**FP 2024-46, Plc 1002.04 & Plc 1002.41 Renewal Fees for Architect Certificates of Authority
and Professional Engineer Certificates of Authority**

Summary of Comments on Initial Proposal with OPLC Responses

April 25, 2024

Background

The Executive Director of the Office of Professional Licensing and Certification (OPLC) adopted emergency rules effective December 14, 2023 to reduce the renewal fees in Plc 1002.04 for architect firm certificates of authority (COAs) and in Plc 1002.41 for professional engineering firm COAs due to the fees that were originally adopted being double what was in effect previously, which was not intended. The Executive Director is now proposing to readopt the emergency rules as regular (10-year) rules to ensure that the correct fees remain in effect.

No board members and no one from the public attended the public hearing held on April 16, 2024. No written comments were received from any board members or other interested persons. No comments were received from the Office of Legislative Services, Administrative rules.

The OPLC made no revisions on its own initiative.
